

**AMENDMENTS TO THE ABSTRACT OF THE DISCLOSURE**

Please enter the following Abstract of the Disclosure in the record:

A refrigerator having an inner space enclosed by a heat-insulating housing and having at least one compartment for accommodating articles that are to be cooled. The compartment has a curved edge and is disposed in the inner space. A strip placed on the curved edge in the form of a decorative, protective or reinforcing element, maintains its curved shape due to its plastic core.
